Missouri's History of Banking and Regulation

Division of Finance

The first banking corporations in Missouri received their charters by special acts of the territorial legislature and, after 1820, by acts of the Missouri General Assembly permitting the incorporation of particular banks. During the pre-Civil War period, the state's financial needs were also served by a number of incorporated private banks which lacked the legal authority then possessed by state-chartered banks--that of issuing bank notes which circulated as currency. Private or unincorporated banks continued to operate in Missouri as late as the 1920s and a number of today's banking corporations began operations as private banks.

In 1857, the General Assembly enacted a statute creating state administrative offices for the supervision of state-chartered banks. The Banking Commissioner and Assistant Banking Commissioner were given four-year terms and were appointed by the Governor. The Commissioner and Assistant Commissioner had custody of the plates and dies used for the printing of each bank's notes and one of the two state officials was required to countersign each bank note issued. Periodic bank examinations were required by the act. The first person to serve as Banking Commissioner was Claiborne F. Jackson. He was elected Governor in 1860, urged Missouri to secede from the Union and was replaced by an anti-secessionist Governor during the 1861 state convention at which Missouri decided to remain in the Union.

START OF NATIONAL BANKS

In 1863, an act with the stated purpose of creating a national currency and which permitted state banks to become national banks was passed by the United States Congress. While a national currency was undoubtedly needed, the main underlying purpose of the act was to better finance the Union's Civil War effort. National banks were permitted to issue bank notes up to an amount equal to ninety percent of the market value of U.S. Government bonds deposited with the U.S. Treasury. Thus, national banks were forced to buy bonds to finance the staggering cost of the Civil War. In 1865, Congress imposed a ten percent tax upon the payment after July 1, 1866, of any bank note other than national bank notes. As a result of this statute, most of the bank note issuing state-chartered Missouri banks became national banks and, in 1866, the posts of Banking Commissioner and Assistant Banking Commissioner were eliminated.

Missouri's first general incorporation act for banks was adopted in 1877. No prior submission to or approval by any organ of the state was required by the act. The first comprehensive trust company statute was adopted in 1885. In 1895, an act was passed requiring annual bank examinations and the Secretary of State was given administrative powers to enforce compliance with the banking statutes.

In 1907, the General Assembly revised the banking statutes and created the State Banking Department headed by the Bank Commissioner. This action took effect in 1909.

In 1921, the State Banking Department became the Department of Finance and the title "Commissioner of Finance" was created. The 1945 Constitution, which took effect July 1, 1946, changed the name of the Department of Finance to the Division of Finance and placed it under the jurisdiction of the Department of Business and Administration. The State Banking Board was created in 1955 to handle appeals from certain decisions and orders of the Commissioner of Finance.

Under the Reorganization Act of 1974, the Department of Business and Administration was abolished and the Division of Finance was transferred to the new Department of Consumer Affairs, Regulation and Licensing which, by Constitutional amendment adopted on August 7, 1984, was renamed the Department of Economic Development.

DIVISION OF FINANCE TRANSFERRED TO DIFP

Per Executive Order 06-04 the Division of Finance and the State Banking Board were transferred from the Department of Economic Development to the Department of Insurance, Financial Institutions and Professional Registration (formerly Department of Insurance). The transfer was effective August 28, 2006.

The director of the Division of Finance, by tradition referred to as the Commissioner of Finance, is appointed by the Governor with the advice and consent of the Senate. The "State Division of Finance" was created by Chapter 361

Missouri's History of Banking and Regulation

Division of Finance

RSMo. Pursuant to that Chapter and Chapter 362 the Division is required to examine all state-chartered banks and trust companies at least once every eighteen-months. The purpose of the examination is to determine each institution's solvency, safety of operations and adherence to applicable state laws and regulations. The overall goal of the Division is to ensure a safe and sound banking system for Missouri.

Missouri was originally a unit bank state with restrictions on the location and number of branches. The restrictions were gradually removed during the 1970s and 1980s. Finally, a federal court ruled that national banks in Missouri were no longer subject to Missouri's branching limits. Immediately, state banks were given parity, first by emergency regulation and then by law, and all restrictions as to location and number were eliminated.

PROTECTION OF DEPOSITORS TOP PRIORITY

Protection of depositors is the fundamental concern which motivates the actions of the Division of Finance. Missouri laws contain numerous references to this strong public policy. It underlies the enforcement and removal actions authorized in Section 361.260, et seq. It is found in the law governing priorities in liquidation (Section 361.190) and it is reflected in the statutes prohibiting a bank from receiving deposits when it is either insolvent or in failing circumstances (Section 362.345). Accordingly, it is the policy of the Division to make every effort to assure that no losses are suffered by state bank depositors.

The Division of Finance is self-supporting through statutory assessments and fees based on the total assets of the institutions under its supervision. Prior to August 28, 1991, all such receipts were deposited into the General Revenue Fund. Effective that date, House Bill 516 passed by the 86th General Assembly, created a special fund, known as the Division of Finance Fund, which is devoted solely to the payment of expenditures incurred by the Division for the regulation of banks, trust companies and other corporations subject to its jurisdiction.

Missouri Banking – 2014 to 2016

Bank and Trust Examinations

Division of Finance

The Division of Finance regulates state-chartered banks and trust companies. The Division is required by Section 361.160 RSMo to perform examinations of all such state-chartered institutions. This law, as amended in 1996, extended the examination cycle from once each year to at least once in each eighteen-month period for institutions rated satisfactory. Institutions rated less than satisfactory are examined at least once each twelve months. All banks were examined within these frequency requirements in the period that is the subject of this report. This was accomplished with the cooperation of the Federal Deposit Insurance Corporation and the Federal Reserve Banks under alternating examination agreements.

The objectives of the Division of Finance in the examination process are to:

- Promote safe and sound banking and fiduciary practices in state-chartered institutions, thereby safeguarding depositors' funds and maintaining public confidence in Missouri state-chartered institutions.
- Determine the financial condition and operating risks of each institution. This includes reviews of the institution's capital adequacy, asset quality, management practices, earnings performance, liquidity position, and sensitivity to interest rate and market risk changes. Adequacy of internal management reports, computer systems, and fiduciary activities is also evaluated.
- Monitor compliance with State and Federal banking laws and regulations.
- Verify the accuracy of financial information provided to the public.

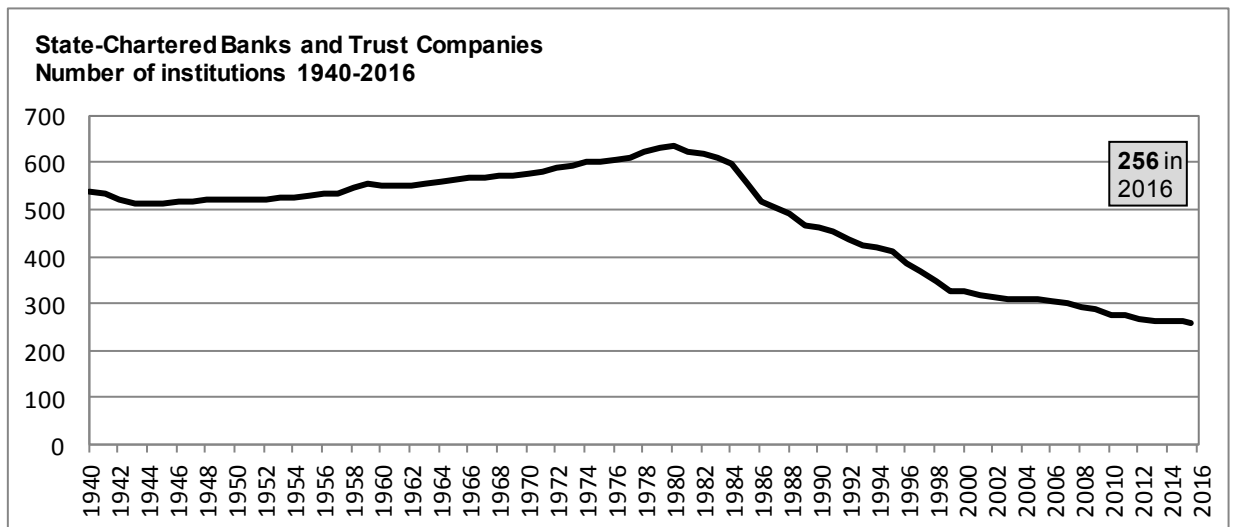

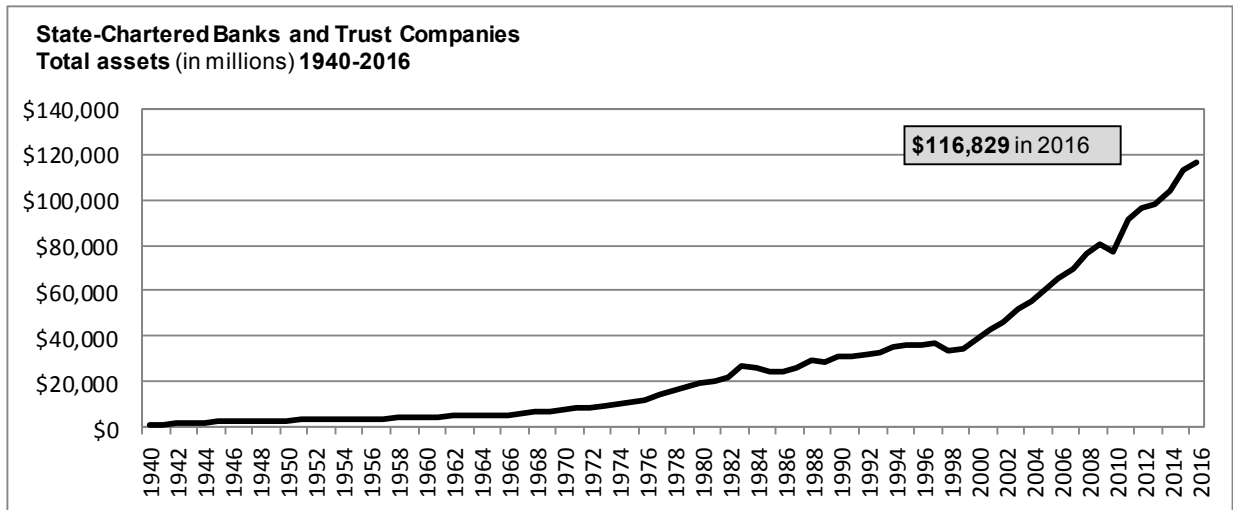

These objectives are met through the Division's supervisory process that stresses effective and efficient regulation, together with minimizing state government's burden on financial institutions. On-site examinations are conducted on commercial bank activities, trust operations, and computer systems to evaluate the institution's risk profile and management practices. In addition, the Division regularly conducts off-site statistical and financial reviews of each institution in order to identify emerging signs of elevated risk. Where elevated risk is noted, Division examiners visit the bank to develop a proactive resolution of developing problems.

Banks and trust companies with significant weaknesses receive close regulatory attention including the possibility of enforcement action designed to address and correct problem areas. The Division may also take action to merge, close or otherwise address institutions with severe financial difficulties.

The Division continues its efforts to reduce regulatory burden while performing examination activities. This has been achieved through efficiencies gained in risk focusing each examination and leveraging computer technology to enhance bank examiners' effectiveness.

Division of Finance

Savings and Loan Associations

Division of Finance

Effective July 7, 1994, the responsibility of administering the laws regulating the savings and loan industry was transferred to the Division of Finance.

Chapter 369 RSMo requires the Division of Finance to exercise general supervision over the savings and loan industry, including the enforcement and execution of laws. Supervision includes periodic examinations to determine safety of operations and compliance with applicable laws and regulations.

Comparative Statement of Condition

Consumer Credit

Division of Finance

The Division of Finance is charged with the responsibility of executing laws relating to consumer transactions under several statutes.

Sections 367.100 – 367.215 require licensing of **consumer credit lenders**, more commonly known as **small loan companies**. The supervision involves periodic examination for the purpose of assuring compliance with various consumer laws concerning rates, credit related insurance, disclosures, and refunding. The Division collects reports of these companies' financial activities.

Sections 367.500 – 367.533 comprise the **Title Loan Law**, which sets standards for companies exclusively engaged in making loans secured by titled personal property.

Chapter 365 is the **Motor Vehicle Time Sales Act**, a comprehensive licensing and disclosure law regulating time sales of motor vehicles. The supervision includes periodic examination to assure compliance with various consumer provisions.

Sections 364.010 – 364.070, the **Missouri Financing Institution Licensing Act**, regulates persons and entities engaged in the business of purchasing retail time contracts on merchandise other than motor vehicles. The supervision includes periodic examination for the purpose of assuring compliance with various consumer provisions, especially those found in the substantive law relative to Sections 364.010 – 364.070, the **Retail Credit Sales Act** (Sections 408.250 through 408.370).

The **Missouri Second Mortgage Loan Act**, Sections 408.231 through 408.241, treats loans secured by junior liens on residential real estate. The Division of Finance examines these loans for compliance with all of the consumer provisions.

The **Missouri Premium Finance Law**, found within Chapter 364, is a comprehensive licensing, disclosure, and rate act for institutions which finance insurance premiums. The Division of Finance maintains a supervisory authority over licensees under this act to assure compliance with provisions designed to protect the consumer.

Sections 408.500 – 408.506 require licensing and regulation of companies engaged exclusively in the business of making unsecured loans of \$500 or less, known as **payday loans**. The Division of Finance examines such lenders to assure compliance with the consumer protection provisions.

Section 408.510 created "**consumer installment lenders**", i.e. lenders who make loans of any size but in all cases requiring a minimum of four installments which distinguishes them from "payday lenders". The Division of Finance examines these lenders to assure compliance with consumer protection provisions.

Sections 407.635 – 407.644 provide for the registration of credit services organizations, commonly known as "**credit repair companies**". The Division of Finance registers such companies and investigates any complaints regarding performance.

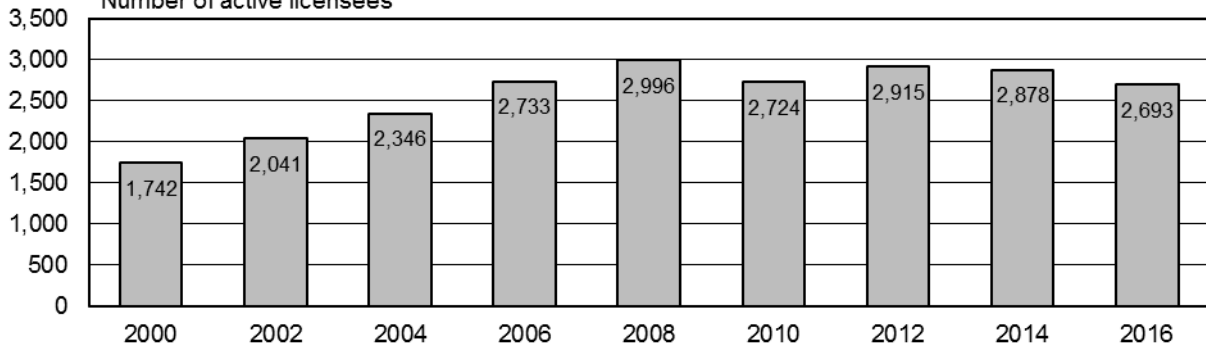

The **Sale of Checks Law**, found in Chapter 361, provides for licensing of companies which issue money orders, checks, or which transmit funds electronically. The purpose of the law is to assure that money orders issued in the State of Missouri are paid according to their terms. The Division licenses companies to engage in such business upon filing an application, certified audit, and bond or letter of credit to assure performance.

The **Missouri Anti-Redlining Law**, Sections 408.570 through 408.600, prohibits discrimination in making of loans secured by residential real estate because of location of a specific property or race, age, sex, marital status, religion, or national origin of the borrower. The Division enforces the anti-redlining laws relative to all state-chartered banks, savings and loan associations, and licensed financial institutions plus mortgage bankers. All such institutions located within cities or counties with populations exceeding 250,000 persons are subject to examination by the Division as well.

The **Debt Adjusters Law**, Sections 425.010 through 425.300, as of August 31, 2011, requires bonding for persons who, for consideration, act as intermediaries to alter the terms of debts.

Number of active licensees

Residential Mortgage Loan Brokers and Mortgage Loan Originators

Division of Finance

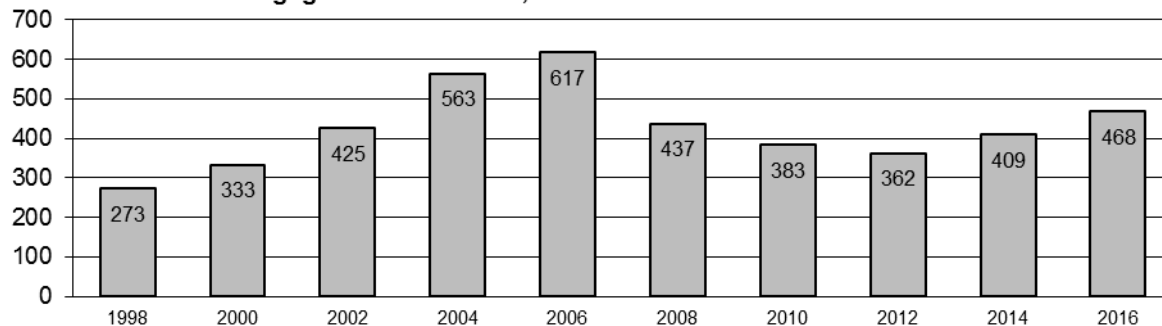

The Missouri Secure and Fair Enforcement for Mortgage Licensing Act (SAFE Act), Sections 443.701 - 443.893 RSMo, assigns to the Division of Finance the responsibility of supervising residential mortgage loan brokers and mortgage loan originators. Supervision includes licensing and examination authority. The aforementioned SAFE Act implemented licensing of individual loan originators and granted the Division examination powers of any mortgage licensee for the first time in the State of Missouri.

A company (broker) license is required to originate or service residential real estate loans. Individuals employed by a licensed company who take an application or negotiate rates/terms of a residential real estate loan with a borrower must obtain a mortgage loan originator license. Before issuing a license, the Division of Finance is required to investigate each applicant for character, general fitness, experience and financial responsibility. Regulated depository institutions and their employees are largely exempted from licensing by state and federal law.

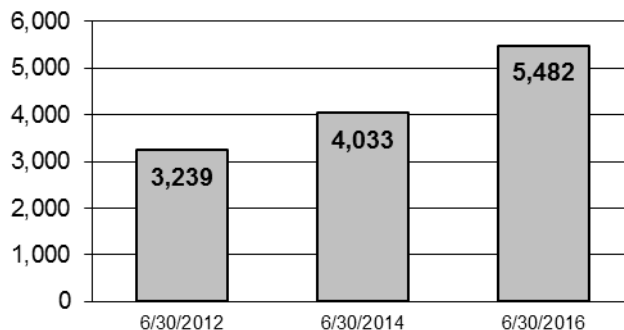

The activities of licensees are generally examined biennially for compliance with state and federal law related to the origination and servicing of residential real estate loans. Licensees who have demonstrated poor compliance performance are subject to more frequent examination and/or investigation by the Division.

As of June 30, 2016, 468 residential mortgage loan brokers and 5,482 mortgage loan originators were licensed by the Division.

Abstract of Reports of Condition Filed by State-Chartered Banks and Trust Companies

Summary

As of June 30, 2016, 256 state-chartered banks and trust companies held assets of \$116.8 billion.

Since June 30, 2014, eight new bank charters have been granted and 152 branches were approved. Twelve state-chartered banks merged with other institutions. There were no bank failures.

During the biennial period, the number of state-chartered banks and trust companies declined by 2.3 percent from 262 to 256, due mostly to mergers and consolidations. Excluding automated teller machines (ATMs), Missouri state-chartered banks had 1,822 offices as of June 30, 2016.

Abstract of Reports of Condition Filed by State-Chartered Banks and Trust Companies

as of June 30, 2016

The attached report represents a consolidation of Reports of Condition and Income filed by state-chartered banks with the Missouri Division of Finance as of June 30, 2016, and a comparison with the statements filed one year earlier. Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies declined from 262 to 256. During these past twelve months six banks merged into other institutions, one new state bank charter was granted as a national institution converted to a state chartered bank, and one bank self liquidated.

Assets in state-chartered banks totaled \$116.8 billion on June 30, 2016, an increase of 9.2 percent from one year earlier. Deposits were \$96.2 billion and total loans were \$75.4 billion on June 30, 2016, an increase of 8.6 percent and 11.7 percent from one year earlier, respectively.

The overall condition of Missouri state-chartered banks continues to improve. The attached graphs illustrate improvement in several component areas. Asset quality has improved, with the past due ratio stabilizing at a manageable 1.14 percent down from 1.33 percent one year earlier. The return on assets remains strong at 1.09 percent, despite a compressed net interest margin. Only 2.7 percent of Missouri state-chartered banks lost money in the first six months of 2016, compared to 4.5 percent of all U.S. banks.

Capital remains strong as the Tier 1 Leverage Capital ratio is 9.76 percent of total assets, above the National average of 9.57 percent.

Abstract of Reports of Condition Filed by State-Chartered Banks and Trust Companies

as of December 31, 2015

The attached report represents a consolidation of Reports of Condition and Income filed by state-chartered banks with the Missouri Division of Finance as of December 31, 2015, and a comparison with the statements filed one year earlier. Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies remain at 261. During these past twelve months four banks merged into other institutions and five new state bank charters were granted; as three national institutions and two federal thrifts converted to state chartered banks, and one bank self-liquidated.

Assets in state-chartered banks totaled \$112.8 billion on December 31, 2015, an increase of 8.5 percent from one year earlier. Deposits were \$93.5 billion and total loans were \$71.4 billion on December 31, 2015, an increase of 8.9 percent and 11.2 percent from one year earlier, respectively. Brokered deposits increased by 44 percent in the past year, with most of this growth attributed to one large institution, which maintains a unique funding structure.

The overall condition of Missouri state-chartered banks continues to improve. The attached graphs illustrate improvement in several component areas. Asset quality has improved, with the past due ratio stabilizing at a manageable 1.27 percent down from 1.58 percent one year earlier. The return on assets remains strong at 1.06 percent, despite a compressed and shrinking net interest margin. Although the net interest margin for Missouri state-chartered banks has declined to 3.74 percent, it compares favorably to 3.13 percent for all FDIC insured institutions in the country. The median return on assets for state-chartered banks is 0.97 percent as of December 31, 2015.

Capital remains strong, as the Tier 1 Leverage Capital ratio is 9.51 percent of total assets.
